Re: Indemnification and Manufacturers' Warranty Issue

To Whom it may concern:

This correspondence sets forth warranty, indemnification and other issues involving Efficient Transportation Solutions' products.

Guarantee for Manufacturers' Defects

1. **Tadger** – The Tadger product carries a lifetime warranty against manufacturers' defects. Should the product fail to perform because of a defect due to its manufacturing, then we will replace the unit at no charge during the lifetime of the vehicle which the Tadger device was installed on. The installation kit carries a standard one year warranty against manufacturers' defects. Should the installation kit components fail and/or leak due to their manufacturing, then we will replace the faulty component at no charge.

2. **Neck It** – The Neck It product carries a limited twelve (12) month warranty against manufacturers' defects. Should the product fail to perform because of a defect due to its manufacturing, then we will replace the unit at no charge within twelve (12) months from date of purchase.

4. **Ez Tap** – The Ez Tap products carry a six (6) month warranty against manufacturers' defects. Should the product fail to perform because of a defect due to its manufacturing, then we will either repair or replace the unit at no charge within six (6) months from date of purchase.

Indemnification for Loss

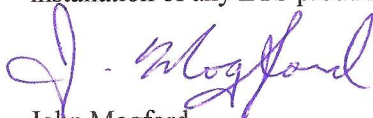

In the event that any ETS product solely causes damage to the engine (Tadger, Everoil, Ez Tap), fuel tank (Neck It) and/or tires (Pressure Pro), ETS will replace the product and compensate the customer for damage to the vehicle component. In the event that ETS or its Agents/Dealers do not install the ETS product, then the customer must demonstrate by clear and convincing evidence that the installation was proper.

Commercial Liability Insurance

Efficient Transportation Solutions maintains \$2,000,000 commercial liability insurance

Impact on Customers' Manufacturers or Service Warranty

All ETS products are considered "after market" products and the installation of any product does not void a manufacturers or service warranty to consumers under the Magnuson-Moss Act (US Federal Law). This law, however, does not apply to the sale of products to commercial vehicles or fleets. For commercial vehicles, we have letters from most OEM's and in addition we recommend that you review your manufacturers or service warranty to determine if the installation of any ETS product affects this warranty.
