

# Efficient Transportation Solutions

# Who we Are

ETS offers innovative solutions to transportation companies increasing both their environmental responsibility and profitability

# Why ETS

- ETS has a strong management team with over 25 years experience in the transportation industry
- ETS is the industry expert providing essential products to accelerate your business
- ETS continually researches and offers the latest cutting edge technologies for their customers

# Our Products

ETS currently offers 6 Unique Product Lines to Benefit Your Company...

- **Tadger** – in-line patented devices for fuel savings and emission reductions
- **MonoVan** – lightweight, composite panels assembled into dry freight and insulated van body kits
- **EarthSearch** – a portfolio of hardware and software products giving organizations Continuous Visibility of their assets in Real-Time, All of the Time
- **Ez Tap** – wireless data link adapters and software for engine diagnostics and vehicle parameter tracking
- **Pressure Pro** – reliable, durable and accurate tire pressure monitoring systems
- **Neck-It!** – anti-siphoning devices for North American trucks

# Tadger

The Tadger is a patented means of allowing the fuel on any gas or diesel engine to burn more efficiently.

The Tadger creates a controlled turbulence through a fixed geometric configuration. This turbulence conditions the fuel to allow it to burn more efficiently. It is installed like an in-line fuel filter on the input fuel line.

# Tadger

- Features and Benefits
  - At least 3% increase in fuel mileage
  - Significant emissions reductions
  - Reduced black soot and smoke
  - Increased oil life
  - Increased horsepower
  - Lifetime warranty – due to no moving parts
  - Easy installation
  - One time investment
  - Quick ROI

# MonoVan

Our truck body panels are a unique, lightweight composite sandwich panel made of polypropylene honeycomb with a face sheet made of Twintex®, a fibre reinforced polypropylene weave, fused on to each side of the honeycomb. Another thin layer on top of the Twintex® gives the surface a smooth finish.

# MonoVan

## Features and Benefits

### 1. Lighter

- Weighs approximately 2100lb less than a traditional 24ft dry freight van (based on published weights)

### 2. Stronger and more Durable

- The panels are impervious to the elements and highly impact resilient
- The panels will never rust

### 3. Environmentally Responsible

- Reduces fuel consumption and GHG emissions
- Increased payload increases operating efficiency
- Made from 100% recyclable materials

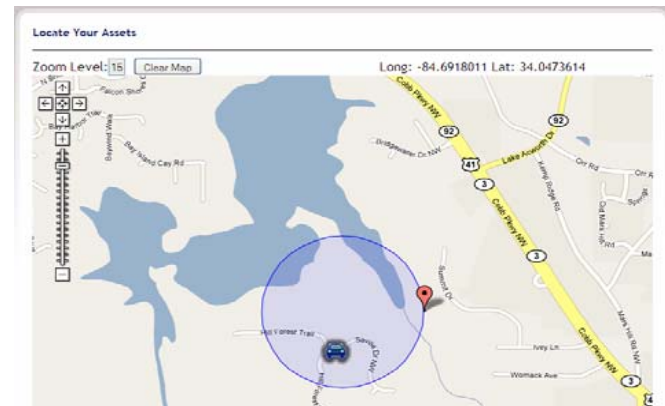

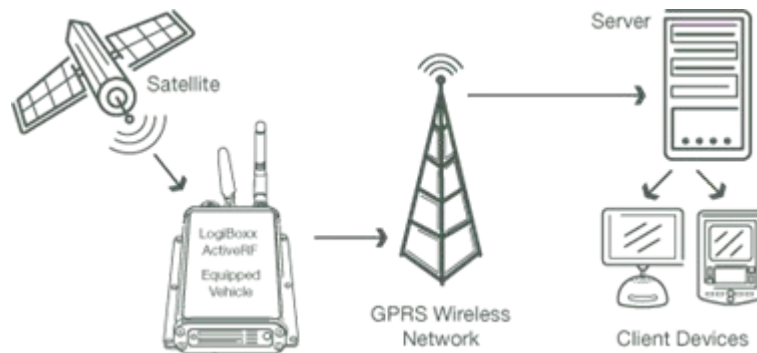

### 4. More Cost-Effective

- Lower Fuel Consumption + Greater Payload + Competitive Advantage + Higher Resale Value + Lower Maintenance Cost + Longer Lasting Materials = **Higher Profits**

# EarthSearch

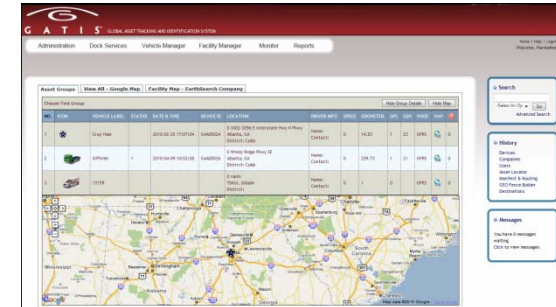

EarthSearch provides LogiBoxx Certified Solutions, which are a portfolio of hardware and software products giving organizations Continuous Visibility of their assets in Real-Time, All of the Time.

# EarthSearch

## Products Include...

- LogiBoxx™
- GATIS™ – System Software
- RFID Readers
- MobileManager™
- TrailerSeal™
- RFSeal™

# EarthSearch

## Providing Solutions for...

Fleet / Vehicle tracking (GPS / AVL)	Tracking of rider activity (entry / exit) on transit vehicles	Tracking asset movement (e.g. – pumps, motors, generators, etc.)	Tracking of lost or stolen assets	Teen Driving Issues / Safety
‘Real-time’ notice of deliveries to wrong location(s)	Monitoring of remote locations and assets at those locations	Tracking of trailers / containers in a yard, in transit or at remote sites	Security tracking of vehicle ingress / egress to any location(s)	Tracking of hazardous materials transport
Tracking of pallets of goods or other ‘high-value’ assets in transport and deliveries	Monitoring of service / delivery vehicles and driver activity	Track opening of trailers / containers in yards	School Bus / Student entry and exit with ‘real-time’ notification to school and parents	Tracking of security personnel in relation to their vehicle
‘Real time’ tracking of movement of people and / or equipment at public events	Tracking opening of secure locations or other containment or storage units	Track employees time spent on the job site with the company vehicle and equipment	Validating security inspections of customer sites by security patrol staff	Elderly Driving Issues / Safety

## EZ-Tap

Simplify your diagnostics and monitoring, with Ez-TAP Wireless Data Link Adaptor, by eliminating the need for wires.

## EZ-Tap

- Features and Benefits
  - Allows service techs to perform diagnostics, the same way as they have for years, except without any cabling
  - Identify all trucks entering and exiting your facility
  - Automatically report parameters important to the operation of your company
  - Automatically report SAE fault codes
  - Automatically report user defined parameters and Triggers Events
  - Run OEM Diagnostics Software (RP1210 Compliant)
  - Permanent and Temporary installations available
  - Integrated TPMS
  - Store service records on EZ-Tap
  - Installs in seconds with no tools required
  - No “IT” knowledge required

# NeckIt

NeckIt saves your fuel from being stolen by organized, opportunistic thieves and regular small scale scams.

# NeckIt

- Features and Benefits
  - Stops siphoning right to the top of the tank
  - Rapid fit in 2 minutes
  - No gluing
  - No drilling
  - No damage to tank neck
  - No splash back
  - Tested to 120L/min
  - Bayonet and screw fittings available
  - Interchangeable between vehicles
  - 3yr guarantee
  - Withstands serious attacks

# PressurePro

PressurePro is the “Original” Tire Pressure Monitoring System (TPMS) in the industry since 1991. TPMS technology adds greater safety and savings for all types of vehicles, in a wide variety of industries.

# PressurePro

- Features and Benefits

- Increased Fuel Efficiency
- Extended Tread Life
- Reduced Carbon Emissions
- Decreased Maintenance Cost
- Reduced Roadside Downtime
- Added Safety
- Enhanced Vehicle Handling
- Greater Stability and Braking
- Less Damage to Casings
- Lower Insurance Costs due to lower accident rate
