

NECK-IT!

The Ultimate Anti-Siphon Device

Distributed By

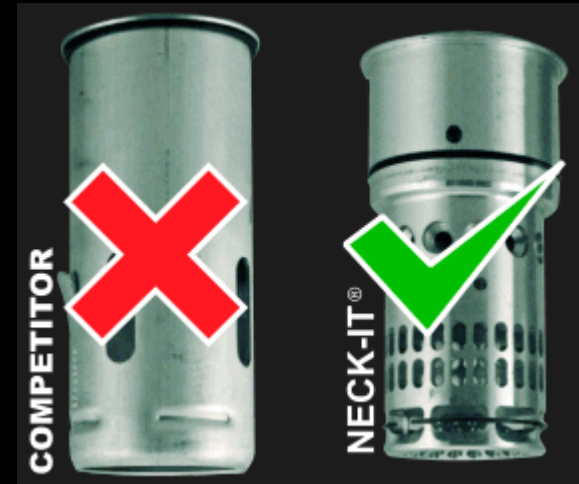

NeckIt saves your fuel from being stolen by organized, opportunistic thieves and regular small scale scams. Use NeckIt and quite simply, once your fuel is in, it can't be removed.

Features and Benefits

- Stops siphoning right to the top of the tank
- Rapid fit in 2 minutes
- No gluing
- No drilling
- No damage to tank neck
- No splash back

Features and Benefits

- Tested to 32gal (120L) /min
- Bayonet and screw fittings available
- Interchangeable between vehicles
- 3yr guarantee
- Withstands serious attacks
- Customs compliant

Did You Know...

- Using a half inch tube, 1L of fuel can be siphoned within 30 seconds...this means that about 100L of fuel can be siphoned in the time a driver stops for a break at a truck stop
- But unlike competitors, **NeckIt** will not allow a half inch tube fit through it
- **NeckIt** is now available to fit all Class 8 trucks sold in North America

NeckIt is brought to you by:
