

Mack Trucks, Inc.
Warranty Department
2100 Mack Blvd.
Allentown, Pa. 18103-5622

January 21, 2008

John Mogford
President, Tadger Group International

This is in reply to your request on January 18th regarding a statement on our position regarding the application of warranty when your product is used on Mack vehicles and/or engines.

In general, Mack Trucks, Inc. makes no statements what-so-ever about components not of our design or manufacture.

The use of items which are not designed or manufactured by Mack Trucks, Inc. does not, in and of itself, void the Warranty. However failures that are judged, in the opinion of Mack Trucks, Inc, to be the result of the use of such an item would not be covered under the provisions of the Warranty.

Mack Trucks, Inc. produces diesel engines which comply with applicable emissions standards. Mack Trucks, Inc makes no statement what-so-ever relative to the effect of devices not of our design or manufacture relative to their effect on emissions.

We also advise you that you may not use the name and registered trademarks of Mack Trucks, Inc in any way which implies an endorsement of your product.
